

Job Description: AI / Machine Learning Engineer

Company: TechNova Solutions

Location: Remote

Job Overview:

TechNova Solutions is seeking a motivated AI / Machine Learning Engineer to design, develop, and deploy intelligent solutions for our clients. The ideal candidate is passionate about AI, data analysis, and modern software development practices.

Key Responsibilities:

- Develop and implement machine learning models and AI solutions.
- Write efficient, reusable code in Python, Java, and SQL.
- Collaborate with cross-functional teams to deliver data-driven insights.
- Work with cloud platforms and container technologies such as Docker.
- Participate in code reviews, testing, and debugging.

Required Skills:

- Python
- Java
- SQL
- Machine Learning / AI
- Data Analysis
- Communication skills
- Teamwork
- Cloud computing
- Docker

Preferred Qualifications:

- Experience with deep learning frameworks (TensorFlow, PyTorch)
- Understanding of software development lifecycle
- Strong analytical and problem-solving skills

Education:

- Bachelor's degree in Computer Science, Engineering, or related field

Experience:

- 2+ years in AI or Data Analysis projects
